EDUCATION

Stevens Institute of Technology

Hoboken, NJ

Master of Science in Finance

May 2027 (Expected)

Bachelor of Science in Computer Science, Minor in Quantitative Finance

Sep. 2022 – May 2026

- **Awards:** Edwin A Stevens Scholarship, Dr. Charles Suffel Scholarship, Rising Star in IT 2025, Dean's List
- **Relevant Coursework:** Machine Learning, DSA, Database Management, Software Development, Web Programming

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, SQL, C/C++, R

AI & Machine Learning: Agentic AI Systems, LLM Applications, NLP, Sentiment Analysis, scikit-learn

Frameworks & Technologies: FastAPI, Flask, Next.js, React, React Native, Node.js, REST APIs, Socket.IO

Data & Databases: MongoDB, Supabase, Firebase, pandas, NumPy, Excel

Tools: Git, Docker, VS Code, Cursor, GitHub Copilot, Android Studio, Expo Go

EXPERIENCE

Artificial Intelligence Research Assistant

May 2025 – May 2026

Stevens Institute of Technology - Professor Yan

Hoboken, NJ

- Analyzed 100+ AI-assisted team interactions using Python and Excel to quantify the impact of generative AI on group creativity and decision-making outcomes
- Developed structured coding methodologies for conversational datasets, reducing manual analysis effort by 50%.

Information Technology Assistant

Jan 2025 – Feb 2026

Stevens Institute of Technology

Hoboken, NJ

- Developed technical solutions to enhance user experiences, leveraging knowledge of IT systems, conferencing platforms, networking, and software tools
- Awarded Rising Star in IT 2025 for exceptional technical support and contributions to Academic Multimedia Services

AI Software Engineering Intern

June 2025 – August 2025

Sentari AI

Remote

- Engineered full-stack AI journaling platform (Flask, Supabase, Docker) with 15+ RESTful APIs for voice transcription, multi-language detection (170+), AI tag generation, sentiment analysis, and automated emoji suggestions
- Integrated GPT-4 and Whisper APIs for dynamic, language-aware responses in 10+ major languages, optimizing model selection based on real-time detection
- Designed and modified SQL database schemas in Supabase to support new product features, including an AI assistant name-change system, ensuring seamless integration with backend APIs and scalable data storage.
- Developed mood mapping and emotional trend analysis features correlating user-reported and AI-inferred energy levels with sentiment scores, enabling personalized insights and adaptive recommendations

PROJECTS

MarketMind AI | *Next.js, TypeScript, Python, FastAPI, Gemini API, REST APIs, yfinance* May 2026 – June 2026

- Architected a full-stack AI equity research platform with a dual-mode pipeline: instant ticker-based memo generation and a 9-stage autonomous research agent that orchestrates Gemini API calls, yfinance financial data, and live news APIs to produce institutional-grade investment analysis
- Designed an agentic LLM pipeline with dynamic hypothesis planning, multi-source evidence synthesis across up to 8 companies, and critic-loop confidence scoring that iteratively refines outputs until quality thresholds are met
- Built a real-time streaming frontend using Next.js and TypeScript with Server Sent Events (SSE), live pipeline visualization across 9 research stages, and animated confidence tracking to deliver a production-quality UX

CenterPlate | *React Native, Expo, Node.js, Express, MongoDB, Socket.IO, Firebase*

Sep 2025 – May 2026

- Built a full-stack cross-platform mobile app for group meetup coordination and real-time restaurant voting
- Engineered a custom smart midpoint algorithm scoring geospatial grid candidates via a weighted fairness function (85% min-max travel distance, 15% log-weighted city hub proximity)
- Integrated Foursquare Places API v3 with multi-tier fallback logic and real-time session sync via Socket.IO rooms, with Firebase JWT authentication on both REST and WebSocket connections

LEADERSHIP & EXTRACURRICULARS

Alpha Sigma Phi

Hoboken, NJ

Vice President of Finance

May 2025 – May 2026

- Managed a 5-figure budget and financial planning for a 30+ member organization using Excel and BillHighway

The Link (Yearbook)

Hoboken, NJ

President / Co-Editor

Sep 2022 – May 2025

- Led cross-functional team of 20+ in agile-inspired workflow to design, develop, and publish 400+ page yearbook
